The timeline will vary by property. Once an application is submitted, there is a review process that determines the eligibility of the property and whether the type of debris qualifies for removal assistance under this program. Once a valid Right of Entry is obtained, a site assessment will be performed. If the property and debris qualify for debris removal, a work authorization should be issued for removal of the debris within one week.

If you are looking to apply now or learn the status of your application, call 850-961-2002 or visit [lanDebrisCleanUp.Com](http://lanDebrisCleanUp.Com)

***What is the timeline for debris removal?***

There is a review process that determines the eligibility of the property and the type of debris. Once a valid Right of Entry (RDE) is obtained, a site assessment will be performed. If everything qualifies, authorization will be issued for removal of the debris within one week.

While there is no deadline currently for this program, we encourage property owners interested in receiving assistance for the removal of debris on/from their property to apply as soon as possible.
